

## Letter of Recommendation

**Inner Media Vision, Inc.**<sup>SM</sup>  
A Business Consulting Company

Marketing and Brand Development • Event Planning and Fundraising • Media Strategic Planning and Execution • Training, Coaching and Leadership Development

To Whom It May Concern:

There are no words to describe the impact Michael had on my conference, he was nothing short of phenomenal. I am President of Inner Media Vision, Inc., a business consulting company in Northern California and Founder/Executive Producer of The Remarkable Men Leadership Conference. I have had the pleasure of working with Michael E. Parker and hope my perspective will be helpful to you as you evaluate this exceptional candidate.

My first contact with Michael was in 2007 when he attended the First Annual Remarkable Men Leadership Conference. I have had the pleasure of following his successful career over the past several years and was delighted to have Michael and his staff at Stellar Enterprise in attendance both as participants and vendors.

In 2008, Michael E. Parker was invited as the keynote luncheon speaker of the Second Annual Remarkable Men Leadership Conference. Michael's topic focus was Leadership and ranked as the #1 *most important topics* by the 125 participants. Participants of the conference ages ranged from 16 to 70 with a variety of backgrounds from college students to corporate executives to retirees. They traveled from 21 California cities and 4 States. Michael E. Parker managed to capture the attention of his audience while also connecting with those in attendance. The experience had a profound effect on the participants and, because of Michael E. Parker's exceptional skill and professionalism, I am sure that he will continue to be one of the most sought after speakers in the industry.

During the time I have known Michael E. Parker, he has distinguished himself as a conscientious and energetic pioneer in the field of lean management and operations. I have enormous respect for his teaching and leadership skills and will continue to confidently refer him to organizations that could benefit from his expertise.

I urge you to carefully consider Michael E. Parker who is, quite simply, one of the most remarkable entrepreneurs that I have had the pleasure to work with.

Sincerely,  
*Bev Wilmore*
